

## TECHNICAL DATA SHEET

### Product: **CLEAN HANDS HAND CLEANER**

Description of the product: CLEAN HANDS HAND CLEANER is a, specially formulated unique waterless hand cleaner, designed to provide maximum cleaning power, without harsh and aggressive chemicals, which damage and de-fatten the skin, leading to dry, cracked skin and often to dermatitis.

CLEAN HANDS HAND CLEANER is formulated on natural products such as Eucalyptus and Citrus oils and vegetable oil derivatives which provide excellent cleaning power and includes lanolin and Glycerine to moisturise and to protect the skin.

How to use: apply CLEAN HANDS HAND CLEANER to the dirty and soiled hands, rub them gently together, to solubilise the dirt, then wipe off with a cloth or a paper towel. Residue can be washed off with water.

#### FEATURES

#### BENEFITS

1. Free from hydrocarbon and petroleum based solvents commonly found in conventional hand cleaners	Maximum cleaning power combined with maximum skin protection.
2. Free from caustic soda commonly used in conventional hand cleaners	Strong on dirt but mild on the skin
3. The cleaning power of the product is based on natural solvents such as Eucalyptus and Citrus oils and vegetable oil based derivatives.	Industrial grade cleaning power combined with a pleasant odour and gentle action on the skin
4. Phosphate free	Environmentally friendly
5. Contains Lanolin and Glycerine	Provides strong skin protection against excessive drying and de-fattening.
