

Organic Weed Killer 1 to 3 Concentrate

At the time of spaying

Next day

Organic Weed Killer is a non-selective, organic herbicide, based on plant derived, natural compounds. It safely kills weeds, grasses and broadleaves by stripping away the waxy plant coating, causing it to dehydrate and die. Fast acting - visible results in less than 2 hours and the sprayed weeds will die within 1 or 2 days after application. Sprayed areas can be planted within hours. Does not stain brick, concrete or pavement.

Can be used around Pets / Wildlife. Works in cool & cloudy conditions but best results are obtained when applied on warm sunny days Organic Weed Killer is as effective, but faster acting and non toxic compared to leading synthetic herbicides.
