

## TECHNICAL DATA SHEET

### SP0075 BRASS CLEANER 1 TO 5 CONCENTRATE

**PRODUCT DESCRIPTION:** this product was formulated to clean oxidation and tarnish from all types of brass copper and bronze objects, such as jewelry, small brass statues, vases, candle holders, eating utensils, machine and equipment parts, door knobs, door hinges, and locks, keys, nuts and screws, coins, etc.

#### Instructions:

- In a suitable plastic container, combine one part of the brass cleaner concentrate with 5 parts of water and stir until well blended.
- Clean the object of any lacquer, dirt, oil or coating and immerse it in the diluted brass Cleaner
- Leave the object immersed in the cleaner, till all tarnish and oxidation is removed.
- Remove the object from the cleaner and rinse it thoroughly under running water, then dry it with a suitable absorbent cloth.
- Buff dry with soft cloth.
- The cleaned object can be protected against further oxidation or tarnishing by applying a suitable lacquer coating to its surface or protecting it with an application of a thin layer of quality lubricating oil.

**Suitable For:** Brass, Bronze, Copper, and Pewter

**Not Suitable For:** Silver, Silver Plate, Jewellery

In its ready to use form, this product is water based, non toxic, non hazardous, non flammable and biodegradable.
