

TREADMILL AND CONVEYOR BELT LUBRICANT

Our high quality Treadmill and Conveyor belt lubricant has been formulated to provide long lasting, continuous lubrication to all types of treadmill tracks and conveyor belts. The product provides a high degree of friction reduction, thus reducing the wear and tear of the belt, extending its productive life and reducing power consumption.

The sub-micron particle size of the lubricant ensures high lubrication without nozzle blockages.

Characteristics of the product:

- **Easy to apply**
- **Provides superior lubrication extending the life of belts, decks and electronic circuitry of the unit.**
- **Penetrates belting, providing even and complete coverage of the belt surface**
- **Is anti-static and dust repellent**
- **Suitable for manual application or auto-wax treads**
- **Safe, water-based, non flammable, non toxic**
