

## TECHNICAL DATA SHEET

# UNIVERSAL DEGREASER

### DESCRIPTION OF THE PRODUCT

Universal Degreaser is a non streaking, highly concentrated, water based, non flammable and non hydrocarbon based product, specifically formulated for fast and efficient degreasing of car, truck and heavy equipment engines and any other machinery and equipment and other surfaces.

- Universal Degreaser Quickly dissolves grease, oil and dirt.
- Cleans iron, steel, S.S steel, nickel, chrome, aluminium, magnesium and copper surfaces.
- Not harmful to metal, rubber, plastic, masonry or concrete.
- Rinses off easily with water.
- low VOC .

### PRODUCT APPLICATION DIRECTIONS FOR USE

Spray the Universal Degreaser in its concentrated form onto the surface to be cleaned and degreased. Make sure that the surface is adequately covered with degreaser. Applying the degreaser to a warm engine will make cleaning easier. Leave the degreaser on the surface of the engine or of the item being cleaned for 5-7 minutes, then rinse off with a high pressure water spray. Repeat the procedure to remove heavy or very old build up of dirt and grease. Idle engine to dry.

### EXAMPLES OF COMMON USES AND TYPICAL APPLICATIONS

Cleaning and degreasing automobile and truck engines, Industrial equipment, Farm equipment, Lawn mowers, Garage Floors, Tools, etc.
