

## TECHNICAL DATA SHEET

### PRODUCT: UNIVERSAL GRAFFITI REMOVER

#### DESCRIPTION OF THE PRODUCT

UNIVERSAL GRAFFITI REMOVER is formulated for use on all types of porous and non-porous surfaces. The product is supplied in a liquid form or gel form, which makes it easy application onto vertical surfaces. In comparison to other similar products on the market, which are flammable liquids, UNIVERSAL GRAFFITI REMOVER is water based and non-flammable.

#### PRODUCT APPLICATION

Brush onto the graffiti covered surface with a suitable brush, leave on for a few minutes, check to see if the graffiti has softened, or dissolved and then wash off with hose or high pressure water. Repeat the process if necessary. Before attempting removal always check substrate compatibility by applying a small amount of product to a discrete area to be cleaned.

#### EXAMPLES OF COMMON USES

UNIVERSAL GRAFFITI REMOVER is suitable for graffiti removal from brick, masonry, timber, colorbond fences, and signs, glass, ceramic tiles, etc.
